Concerning the Age of a Tree. The Continent

It will teremembered that some time since us apparently authoritative statement was published in our columns setting forth that the encentricitings in the cross-sections of there were not a trustworthy indication of a the tree single. It appears, however, that the old idea has its triends who no ready to come to amid with facts. P. C Smith, Esq., an Ohio lawyer, publishes a letter in which be describe a muster of land-grant cases, in the trial of which 'it very frequently became important to show the date of the surveys. These dates were shown by the indersement on the survey itself and corroborated by an examination of the backs on the line and corexamination of the backs on the line and cor-ner tree of the survey. These hacks invaria-bly letter sear, which to the practical sur-veys was reachly detected, even after a lapse of sixty years. By 'blocking' the tree, act was called and taking the block and containg the operatic rings, from the back and, by the surveys to the intails of the much by the surveyor to the outside of the tice, it invariably corresponded with the dates as they appeared upon the returns made by the arroyor, showing as many rings as yours had chapsed from the date of the suvey thus proving that for each year of the life of the tree an additional concentric ring had been added ! It appears, then, that in some cases at least the rings are trustworthy The author of the contrary theory should now by hand from, though most people will a taln their bettet in the general accuracy of the ring accord

A reported discovery by Dr. Freire in Tho Juneiro as to the cause of yellow fovor attracts much attention. He has been examining the earth of a cemetery where the victims of yellow fever have been buried, and has dis-covered in the earth which lies about bodies buried a year "myriads of microbil exactly identical with those found in the voinitings of persons sick with sellow fever. Dr. Frenchas cultivated the sellow fever germs in gelatine, has reproduced it, and has killed animals with it. A guines pig, whose blood examination showed was in a pure state, was placed in a confined space with carth taken from the grave. "In five days the animal was dead, and its blood proved to be literally. grammed with cryptoroccus in various stagus of evolution; the brain and intestines were yollow with the peculiar piguient of the

was the use preparation periodic adapted to cure diseases of the scale, and the first suc-cessful restorer of faded of gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RYNFWFR has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparal leled success can be attributed to but one cause, the entire fulfilment of its promises.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR REMEMBE wonderfully improves the personal appearance. It cleanes the scalp from all impurities, cures all harmons, feeci, and dryness, and thus provents baldness. It stimulates the weakened glands, and embles them to push forward a new and vigorous growth. The effects of this article are not transiens, like those of alcoholic preparations, but remain a long time, which makes its use a matter of teconomy.

Less than a month ago a swell young man, having the appearance and manners of a Gotham dade, giving his name as J. WEDNESDAY EVENING, SEPT. 19, 1989. J. Readig, arrived in Decatar from the east, and on August 23d entered the em-LOCAL AND GENERAL NEWS.

ploy of Linn & Soruggs as a salesman in the carpet department, a section of the store in the east end of the building, which is somewhat secluded. At seven o'clock last ovening Mr. Readig was arrested by Marshal Mason on a state warrant sworn out by W. H. Linn, charging him with stealing or withholding the sum of \$31 from the firm. Readig was taken to the county jail and locked up for safe-The case seems to be a very simple one,

so far as the discovery of the erockedness of the lah-de-dah, cocktail-drinking salesman is concerned. He had charge of the carpet department and made sales, receiving payment for goods which in every ease under the rules in force he should have sent to the cashier's desk by a cash boy. It appears that Readig did not comply with this rule in every instance, as the sequel shows. Mr. Linn was reasomably certain yesterday that Reading goods by purchasors, and after consulting with Marshal Mason, he set a trap for the young man and caught him easily. Mr. Linu engaged a well-known citizen to go to the carpet department at 3 o'clock and buy a bill of goods of Reading. The citizon was previously given money, every piece of which had been marked by Mc. Linn, so there could be no mistake as to its identification. The citizen bought a bill of goods amounting to \$34, and gave the marked money to Readig. He wrapped up the goods unobserved and the entizen went out with his purchase. Readig went shead and waited on other customers, but though he was given from 3 o'elock until 7, the hour of closing the store for the day, to send the money to the cash office, hadid not do so, and his arrest on the warrant issued by Justice Castis followed as above stated. During the evening Reading stopped into an djoining saloon several times, but his

At the jail he was searched by Marshal Mason in the presence of Mr. Liun, the sheriff, a Republican reporter and several seems not, particularly of the Readig bystanders. The sum of \$53-one \$20 bill, three \$10 bills, a two and a one dollar bill-with a little change were found on his person, all of the money except the \$20 bill and the change, being the same money marked by Mr. Linu and paid Readig by the citizen who made the purchase. Readig sat upon one end of the table with his slick plug hat set back on his head, and repeatedly protested his innocence. He declared with the air of a bully that Mr. Linn had made a great mistake, but when he observed that the Marshal, as is the custom, was about to take possession of the cash, he gave himself away bud by saying: "Every dollar of that money is my own. It belongs to me and I want it. I can prove where I got every dollar of it, and that it all bolongs to me." He was given all the rope he wanted, and no one paid any attention to him. He stepped up to Mr. Lunn and wanted to put him under oath then and there--why, no one could divine but Mr. Linn waved him aside, and came away after the deposed salesman had been securely locked up behind

movements were closely watched, and he

swaggered about in fancied scenrity.

The proof of his guilt is plain, and his prospects for a term of years in the Joliet penitontiary were nover brighter.

The firm to-day learned from whom Readig received the \$20 not accounted for in the above. He had sold a carpet to a woman who didn't call for the package until this foreneed. -Action about Electric Light The adjourned meeting of the city council was held last evening, Mayor Chambers and all the aldermen, except

Shroll, being present. A petition from Catherine E. Athons about an alleged nuisance on West Main street was referred to the public improvement committee.

A petition from the Electric Light company, S. T. Trowbridge president and J. R. Mosser secretary, asking right of way, was read, together with an ordinance out-

lining the privileges desired on the publio streets. The company desired one venr's time in which to creet posts and out up wires. A few of the aldermen thought the time asked was too great and believed the company should be limited to some extent. As to the time Ur. Trowbridge for the company stated that the incorporators would be ready to go to work within thirty days. He also stated that only two wires would be placed on a pole, and that the company asked nothing but what the city had nower to give.

On motion of Ald. Parke, the prayer of the petitioners asking the right to put up the poles and string the wires was granted, and the ordinance committee was instructed to draft an Electric Light order nance to be presented at the October meeting. On motion of Ald. Roberts the above action was reconsidered, and on motion the whole matter was referred to the committee on streets and alleys, it being the understanding that said committee will have an ordinance prepared for submission to the council for action.
